## WASHINGTON MEDALS.

The finest and most complete collection of Washington medals ever offered at public or private sale, containing beside all the rare but well known Washington medals, a large number, unpublished or excessively rare, besides very many duplicates of medals generally conceded to be of great rarity. In the multiplicity of the combinations of dies, the lack of positive information, in many instances, of the exact number struck, the compiler finds it simply impossible always to convey exact and accurate information, and for this reason statements of rarity, etc., are generally omitted. Special information on the subject may be found in Mr Wm S Appleton's "Description of the Medals of Washington," published in the *American Journal of Numismatics*, and afterwards separately reprinted, also in many Coin Catalogues, notably that of the "Holland Sale," sold by W. E. Woodward, Esq., in 1878.

NOTE.—THE MEDALS IN THIS SERIES ARE GENERALLY ARRANGED BY SIZE: the term "*very fine*," or "*perfect*," applied to a medal denotes that it is a perfect impression, of fine color and uncirculated.
